

CROSSWATER+

INTEGRATED WATER MANAGEMENT SYSTEM IN CROSSBORDER AREA+

GREEN

CROSSWATER+ - Integrated water management system in crossborder area+ - is a project funded by the European Union under the Interreg IPA South Adriatic Programme 2021-2027.

Duration

start date - end date

Feb 2024 - Jul 2025

Main Goal

CROSSWATER+ aims to establish an efficient and effective cross-border water management system in the program area between Italy, Albania and Montenegro, focusing on common challenges related to water resources management.

Total budget

136,299.44 €

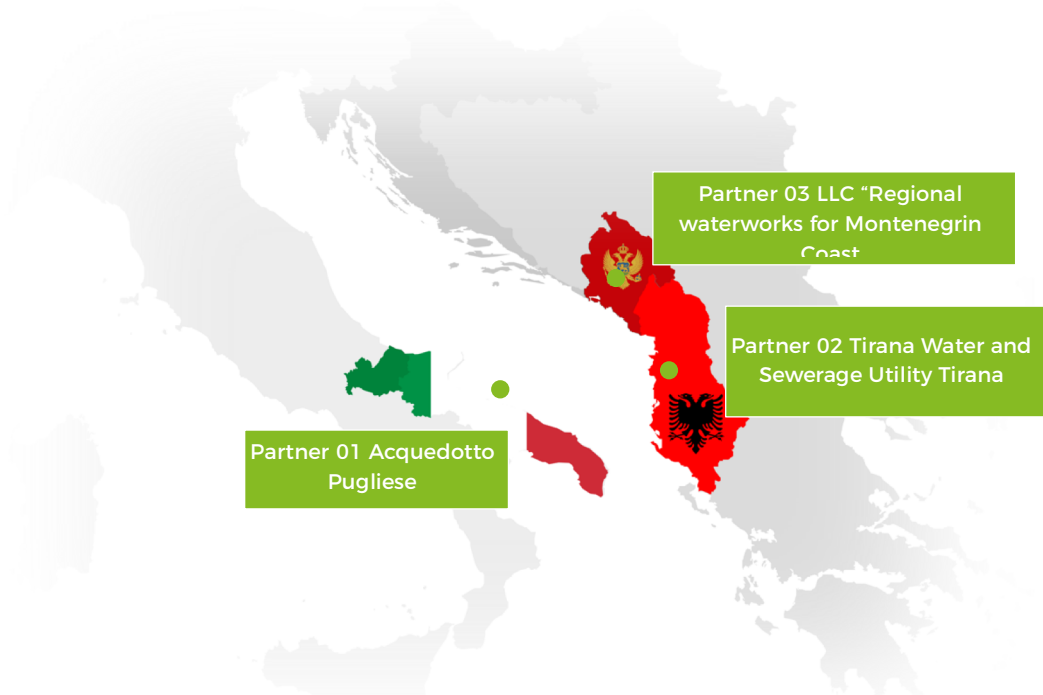

EU funding

112,676.10 €

Project Partners

- Acquedotto Pugliese (ITALY)
- Tirana Water and Sewerage Utility (ALBANIA)
- LLC “Regional waterworks for Montenegrin Coast” (MONTENEGRO)

Project main activities -Expected output/results

CROSSWATER+ aims at creating the conditions for reducing water pollution due to economic activities and waste production, joining a methodology to assess training needs and build training.

The outcome and output will be achieved through workshops, a pilot training scheme, raising awareness campaigns and the signing of a Memorandum of Understanding.
