P.A.S.T.4Future is an European project financed by INTERREG – IPA CBC ITALY ALBANIA MONTENEGRO. The project addresses the main challenges of internal and rural areas with the aim of:

- create new tourist destinations by promoting natural and cultural heritage;
- support the diversification, customization, integration and specialization of local tourism services and offers, focusing on accessibility and sustainability;
- improve the knowledge on the new trends in the tourism market and on the marketing skills of SMEs and local communities to promote tourism based on the experience of "new communities";
- propose smart systems capable of promoting tourism marketing at the international level.

Specifically, the project aims to create a new Tourist Destination based on Accessible and Sustainable Cross-border Community, capable to increase the tourist incoming, in particular of people with special needs (e.g. families with children, disabled people or people with temporary disabilities, elderly, people with special medical needs, people with food intolerances, etc.).

In order to increase the incoming of tourist in the project area, the project partners established a Destination Management Organization in charge of promoting the accessible and sustainable tourism offer in the area and organizing an Education Tour for 20 tour operators at European and international level.

With this communication we officially invite you as European or International Tour Operator to take part in the Educational Tour. All the travel and accommodation costs will be covered by the project. If you are interested to take part in the Educational Tour, please fill the participant form attached at this email. For each Tour Operator involved we expect to host max 2 staff members.

We would like to specify that the whole educational tour consists of services and facilities that allow people with special needs to enjoy their holiday satisfactorily without obstacles or difficulties, independently and comfortably. The tour consists of points of interest that meet the criteria of accessibility and sustainability.

Furthermore, in order to protect health during the educational tour, and anti COVID-19 security protocol is provided:

- compliance with the rules of distancing between people who do not live together;
- prohibition of assemblage;
- obligation to use masks to protect the respiratory tract in all closed rooms accessible to the public and in any case on all occasions when it is not possible to continuously guarantee the maintenance of the interpersonal safety distance;
- frequent use of hand washing and sanitation;
- avoid exchanging objects, sports equipment, food or drinks between non-participants cohabitants;
- compliance with the provisions of the sites to visit (churches, museums, laboratories, wineries, etc.) regarding entrances and the rules of conduct inside;
- observance of the travel schedules and programs;
- no participation in public activities, excursions or tours in case of fever or symptoms flu;
- obligation by customers who show fever, cough and other flu symptoms, to give notice in order to activate the necessary assistance and take care of the activation of the emergency system in the current COVID-19 context.
